German's Seeds Germinate

ASTER, BOUQUET

Here's the way this brand-new Aster grows.

ASTER, POWDERPUFF

New complete mixture of Bouquet types.

PETUNIA, COMANCHE

Introduced last year and now on every progressive grower's list.

LARKSPUR, REGAL

Large florets on huge spikes. A very popular strain in a good mixture of colors.

German's Seeds Germinate

GERMAN'S SEEDS are obtained from the best sources available and are for the most part originators' stock. The remainder are obtained from leading American and European growers.

We solicit business from the critical florist grower. In "Florists' Flower Seeds" we have tried to do all possible to list the most profitable and leading strains available today.

We sell only seeds of good vitality, which will grow under normal conditions. All seeds are tested in our own laboratory before shipping.

H. G. German gives no warranty, express or implied, as to the productiveness of any seeds or bulbs he sells and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

We invite inquiries from large growers. Write us about your requirements on any seeds listed in this catalog, and we will answer promptly.

Discounts: When cash is enclosed or on C.O.D.'s: under \$5.00, net; \$5.00 to \$25.00, 5%; \$25.00 and over, 8%.

On charge orders: If paid within 10 days from date of invoice: under \$5.00, net; \$5.00 to \$50.00, 2%; \$50.00 to \$100.00, 5%; \$100.00 and over, 8%.

No cash discount on supplies.

Payments should accompany all orders unless credit has been established. C.O.D. shipments, 50% in advance.

All prices in this catalog subject to change without notice.

All seed orders sent prepaid to U. S. and Canada.

All items in this catalog are offered subject to crop failures or shortages.

ANTIRRHINUM (Snapdragon)

"Long Season Culture of Forcing Varieties" by A. J. Snyder of Rockwood Floral Co., Inc., an interesting booklet on "Snap" culture, gives the planting and flowering dates for different seasons, number of days from planting seedlings to benching, etc. Sent free upon request.

"SNAPS" for Greenhouse Forcing

For years we have made a specialty of our varieties of "Snap" seeds and they have been enthusiastically received by the trade. For the convenience of our florist trade we have divided our list into Hybrids, early crop and main crop. Originator's packets are shown with the originator's name in parentheses.

INSTRUCTIONS FOR SINGLE-STEM SNAPDRAGON CULTURE

This information lists over 35 varieties, gives the number of days from sowing to benching and the number of days from benching to blooming for every month of the year. Available upon request.

We are always glad to help our customers select the best varieties for their conditions and invite inquiries from them. When writing, state the season you want the Snaps to bloom and when you can bench them. We will gladly send suggestions.

Hybrid Varieties

We have listed the Hybrid Snapdragons first and in separate colors, since they are the most popular varieties.

Pink and Rose Hybrids

- Chevy Chase Pink.** (Winkler.) Early; bright pastel pink. Heavy stem and large spike, resistant to shatter. $\frac{1}{2}$ tr. pkt. \$2.00, tr. pkt. \$3.50.

PETUNIA, America

PETUNIA, Extra-Dwarf Pure White

DWARF CALIFORNIA GIANTS IMPROVED. (5 to 7 in.)

We have a strain of Dwarf Giants of California developed by reselection over the past ten years. We have found it equal to or better than any other. Among the testimonials we have received, we quote the following: "We want to thank you for your help in selecting our flower seeds, especially the Petunias, which proved to be a complete success. Our Dwarf Giants of California is the by-word in this community. Our customers remarked that they had never seen anything like them. Some of them were fully 9 in. across the bell and the plants only 9 in. high."

Dwarf Giants of California, Extra-Dwarf Giants. Our best mixture, this new strain has been bred to fill the need for a truly dwarf pot Petunia. Flowers have well-marked open throats and are beautifully ruffled and fringed. Tr. pkt. \$1.50, $\frac{1}{64}$ oz. \$3.00, $\frac{1}{32}$ oz. \$5.50.

German's Special Dwarf Giants of California. Uniformly dwarf, not grown as a mixture but blended from separate plant selections. The color range includes new shades of pink, salmon, rose and copper. Tr. pkt. \$1.50, $\frac{1}{64}$ oz. \$2.50, $\frac{1}{32}$ oz. \$4.50, $\frac{1}{16}$ oz. \$8.00.

Extra Choice Dwarf California Giants Mixed. More vigorous than Extra Dwarf Strain; therefore better for bedding. $\frac{1}{64}$ oz. \$1.75, $\frac{1}{32}$ oz. \$3.00, $\frac{1}{16}$ oz. \$5.50, $\frac{1}{8}$ oz. \$10.00.

Ramona Strain, Light Shades. Sturdy plants especially bred for pot culture. Light shades predominate. $\frac{1}{64}$ oz. \$1.75, $\frac{1}{32}$ oz. \$3.00, $\frac{1}{16}$ oz. \$5.50.

CALIFORNIA GIANTS. (5 to 7 in. in diameter.)

Paramount Giants. Free-flowering mixture of all shades. Well suited to outdoors; showy even under adverse conditions. Tr. pkt. \$1.25, $\frac{1}{64}$ oz. \$2.50, $\frac{1}{32}$ oz. \$4.25, $\frac{1}{16}$ oz. \$7.50.

Ruffled Monsters Mixed. Highly recommended for outdoor bedding. An excellent mixture of all colors. Free flowering and sturdy plants. Tr. pkt. 75c, $\frac{1}{64}$ oz. \$1.35, $\frac{1}{32}$ oz. \$2.50.

STOCKS

Our sales of Stock seed have been increasing rapidly in the last several years because of the growing popularity of this flower and the wonderful results our customers are obtaining from our highly bred strains. There are numerous strains on the market, but we have found ours to be equal to and in many cases superior to any other strain offered. Listed below are the varieties we have found to be the most popular.

NON-BRANCHING OR COLUMN

Approximate sowing dates:

July 15 to Aug. 1—bloom about mid-Jan.

Sept. 1—bloom about mid-Mar.

Oct. 1—bloom about early Apr.

Dec. 15—bloom about May 15.

Feb. 15 (latest date)—bloom about early June.

Avalanche. Earliest white. Spike is especially long and massive, with very double, closely set florets. Pure white.

Crimson Giant. Distinct new color, an alive and attractive bright crimson red.

Apricot. Ivory-apricot.

Deep Apricot. An improved deeper apricot.

Lilac-Lavender. Fine color for Memorial Day.

Pink No. 22. Bright silvery rose; heavy spike and extra-long stems.

Pink Giant. An improved No. 14.

Royal Purple. Dark purple.

White Giant. Long-stemmed, enormous flower spike. Fully double, pure white flowers showing no green at centers.

White No. 16. Tall; pure white.

Yellow Wonder. Deep creamy yellow.

Formula Mixture. Our own mixture.

Any of above, tr. pkt. (approx. 1200 seeds) \$1.15, $\frac{1}{4}$ oz. \$2.75, $\frac{1}{2}$ oz. \$5.25, oz. \$10.00

Apple Blossom. Extra large florets; strong, whippy stems. Base of floret soft salmon-pink, deepening up the floret to rich pink.

Pacific Pink. Clear, warm, luminous pink with no lavender tints. A true pink.

Either of above, $\frac{1}{2}$ tr. pkt. \$1.00, tr. pkt. \$1.50, $\frac{1}{8}$ oz. \$1.85, $\frac{1}{4}$ oz. \$3.50, oz. \$12.50

Beauty of Nice

Early, free-flowering type of branching habit. Recommended for plant sales in the spring to the home gardener.

Mixed Colors. Tr. pkt. 30c, $\frac{1}{4}$ oz. 75c, oz. \$2.50.

Dwarf Ten-Weeks

Blood-Red

Formula Mixture

Either of above, tr. pkt. 30c, $\frac{1}{4}$ oz. 75c, oz. \$2.50

Trysomic Giant Imperial

Introducing the first Trysomic Stock ever offered to the florist. Produces 85% or more double-flowering plants when sown from seed. In addition, the double percentage can be increased to 100% at the four-leaf seedling stage, since at this time the young singles are noticeably weaker and are readily distinguished from the vigorous doubles.

Bright Rose

Mixed Colors

Lilac-Lavender

Chamois-Pink

White

Any of above, $\frac{1}{2}$ tr. pkt. \$1.00, tr. pkt. \$1.75, $\frac{1}{8}$ oz. \$2.75, $\frac{1}{4}$ oz. \$5.00

STREPTOCARPUS (Cape Primrose)

Wiesmoor Hybrids. A new pot plant. The beautiful flowers stand up above the foliage somewhat like gloxinias, but we predict they will become more popular because they have the advantage of hardiness and disease resistance and are also long-lasting cut flowers. Complete cultural instructions on every packet. By successive sowings from October to March, blooming plants will be available all year for sale or cutting. (Originator's pkts.) Tr. pkt. \$1.75, 3 pkts. \$4.50.

QUALITY OF VEGETABLE SEEDS

NOTICE: We have either visited the trial grounds of the growers from whom these seeds are purchased or had their strains in our own trial grounds. It is our opinion that there are too many inferior (or cheap) seeds on the market today. We have spared no expense in obtaining the seeds in the following list, and we offer only those considered by us to be outstanding strains. We are proud to offer these Extra-Select Strains and assure you that our vegetable seeds are of the same high standard as our Florists' Flower Seeds.

Stokescross F₂ Hybrids

The astonishing hybrid vigor of the Stokescross Tomatoes will, in varying degrees, develop these advantages: production increase up to 30%; earlier, more continuous and profuse fruit setting; more extended harvest season; distinctive qualities of color, flavor and firmness; less cracking of fruit.

Stokescross No. 1. Extra-early—60 days. Average weight 3 ozs. Color and flavor are unique. Plants may be set 2 by 3 ft., for the foliage is light. Tr. pkt. (1000 seeds) Oz.
\$1 00 \$5 00

Stokescross No. 3. 65 days. This variety will mature a profusion of 5-oz. Tomatoes. Developed for the shipping trade and for northern processors. 1 00 5 00

Stokescross No. 5. Early main-crop—70 days. Average weight 6 ozs. Distinguished by its amazing vigor. Production increase up to 30% is not unusual. Rich flavor and high color. 1 00 5 00

TOMATO,
Early Giant
Hybrid

PRIMULA VERIS

One of our most popular perennials. Giant flowers and choice mixed colors.

ALYSSUM, ROYAL CARPET

Top All-America Winner for 1953. A new gem for the garden in a rich violet color. Spreading, compact habit of growth. A splendid companion plant for Carpet of Snow. Height 3 in.; spread 10 to 12 in.

NEW IPOMEA, HEARTS AND HONEY

A new vine flowering until frost. Flower color changes from orange to rose-pink during the day.

MARIGOLD, CUPID YELLOW

Primrose-yellow flowers like chrysanthemums. A dwarf plant only 8 in. tall. Very attractive for pots or borders.

SALVIA, FIREWORKS

We predict this new variety will rapidly replace St. John's Fire.

GLOXINIAS

A December sowing of Gloxinia seed produces fine 4-in. pot plants for June and July sales. The seed is very fine and must be carefully handled. Ideal for a sheltered place outdoors or as pot plants indoors.
